Core Skills

- Highly Motivated, proactive, extremely organized professional
- InDesign
- Multi-task, prioritize, and work well under pressure in a fast-paced environment
- Strong attention to detail
- Highly proficient in Microsoft Office (Excel, Word, and PowerPoint)
- Good communication and interpersonal skills
- Ability to prepare high quality written material

BIOGRAPHY

As a dedicated software engineering student set to graduate in 2025, I have honed my skills through various platforms such as Coursera and Udemy, specializing in both front-end and back-end development. Currently employed as a Front-End Developer at Sivedco Supermarket in Mount Lebanon, I've been actively involved in creating a user-friendly website for online food ordering, price checking, and inventory management. Over my two-plus years at Sivedco, I've contributed significantly to enhancing the digital presence of the supermarket. Furthermore, I've extended my expertise to other businesses by developing websites for restaurants and cafe stores.

Prior to my role at Sivedco, I gained valuable experience in the hospitality sector as a receptionist at a hotel in Beirut from 2015 to 2019. Leveraging my skills, I recently undertook the initiative to create an online reservation system for the hotel, streamlining the booking process for guests. These experiences have not only showcased my technical proficiency but also my ability to apply my knowledge in real-world scenarios. I am excited about the opportunity to contribute my skills to dynamic projects and continue to grow as a professional in the field.

KEY OBJECTIVES & ACTIVITIES

My primary objective is to leverage my evolving software engineering skills, with a focus on both front-end and back-end development, to contribute innovative solutions to dynamic projects. Currently immersed in the fast-paced environment of Sivedco Supermarket, I am dedicated to optimizing the online customer experience through continuous improvements to the food ordering platform, price transparency, and inventory management systems. In addition to my role as a Front-End Developer, I have successfully extended my services to various businesses, creating intuitive websites for restaurants and cafe stores.

With a background in hotel reception management, I bring a unique blend of technical proficiency and customer-centric thinking. My recent project involved developing an online reservation system for a hotel in Beirut, streamlining booking processes and enhancing overall guest satisfaction. Moving forward, my key activities include staying abreast of the latest industry trends, refining my technical skills, and contributing to innovative projects that align with my passion for software engineering and commitment to delivering exceptional user experiences.

Languages

- English (Expert Level)
- Arabic (Native Speaker)
- Ukraine (Good)

PROFESSIONAL HISTORY

| Year | Position | Company | Country |
|----------------|----------------------------------|-----------------------|-----------------|
| 2022 – Present | Front-end developer | Sivedco Supermarket | Lebanon |
| 2024- Present | Front-end developer | Special Projects | Lebanon |
| 2015 – 2019 | Hotel Reservation and accountant | Unit For Living Hotel | Beirut, Lebanon |

WORKING EXPERIENCE

2023 - Present Sivedco Supermarket - Front-End Developer**

As a Front-End Developer at Sivedco Supermarket, I've played a pivotal role in enhancing the digital presence of the supermarket through the creation of a user-friendly online platform for food ordering, price checking, and inventory management. Key responsibilities and achievements include:

- **User-Centric Website Development:** Leading the design and development of a customer-centric website, ensuring an intuitive and seamless online shopping experience.
- **Continuous Improvement:** Proactively identifying and implementing improvements to the website's user interface, functionality, and overall user experience.
- **Collaboration and Teamwork:** Coordinating with cross-functional teams, including sales and marketing, to gather essential information and insights that enhance the quality and relevance of the online platform.
- **Project Management:** Implementing effective project management practices to consistently deliver high-quality front-end solutions within specified timeframes, contributing to increased efficiency and customer satisfaction.
- **Client Interaction:** Collaborating with key stakeholders and customers to address inquiries and feedback, ensuring customer satisfaction and cultivating strong relationships.
- **Business Expansion:** Extending services beyond Sivedco Supermarket by creating websites for various businesses, including restaurants and cafe stores.

Through my role at Sivedco Supermarket, I have demonstrated a commitment to leveraging my front-end development expertise to enhance the digital experience for both Sivedco customers and other businesses, contributing to continued growth and success.
